JOHN BLAKE

WANT WHAT YOU NEED

PHILOSOPHERS tell us we can

have anything we want, provided

we want it enough.

With certain qualifications this is

true. It explains why many men get

things out of life that their friends

never expected to get. They wanted

them, and they got them.

Getting things in that way for most

people involves considerable sacrifice.

For example, if a "big game" hunter

wants an automobile he may get it,

but he may have to give up his

hobby, his clothes and diet if he gets

it while he still remains a very good

clerk.

It is for this reason that when you

begin wanting something, it will pay

you to begin with what you need.

That will involve thought, for none

of us know what we need until we

develop considerable time to reflection

and study.

There are men who want new wives

and they have perfectly good wives

at home. They don't need new wives

therefore ought not to want them.

There are other men who want

wealth when they don't need wealth.

Still other men want steam yachts

when row boats would do them more

good, and private swimming pools

when they would get more fun and

health out of public baths in the

ocean.

They may get these things, but

they will be no better off when they

do get them.

The wanting habit can grow into a

very bad habit, indeed, unless you are

careful to want what you need.

It is well to remember in this connection

that there are many men who are

permanently those who ought to want

first of all.

One of them is a good reputation.

Another is good health. A third is

a home.

Want these badly enough to get

them, and confine your wants after

that to things that are reasonably

certain to bring happiness.

Then want as hard as you like, and

you will get what you want.

Want what you need, and you will

be reasonably sure to get it, if you

begin your search here. But don't want

make you miserable for life, even

though you attain the object of your

desire.
